

Business to Business Expo was a great success. This picture was taken from the second floor in the club house of Water Oak Development. The Business to

Business Expo was put on by the Lady Lake Chamber. As you can see there were probably 60 exhibitors. It was closed to the public so it was designed to show your

business to another business, then they can use your business or refer it. See more pictures on pages 8 and 9. Photos by TomL

Sue Kelley Has Left the Chamber

Sue Kelley has left the Lady Lake Chamber. When she accepted the job as executive Director she had a different vision of where the Chamber needed to go. She took it there. It has grown by leaps and bounds. The Chamber has had as many as 100 business representatives for a lunch meeting...not bad.

When I ask Sue about doing an article announcing her leaving she said NO! So she is not going to be happy with me but I have to say she will be missed by many.

As I understand she is going back to Grand Oaks to do their marketing. They have a Grand Place there and she will share it with everyone she meets. Sue is internet savvy and will add that to her box of tools.

Sue cares about people. They will see that and they will listen to her! Good Luck Sue.

Now you see, that did not hurt.

TomL

Who was this veteran?

By TomL

Famous people I have met. A Veteran came to a meeting I was attending some years ago. I listened to this veteran's story. He was being escorted around by other veterans helping him tell his story. According to his report, he was the last person alive that raised the flag on Iwo Jima and he felt obligated to tell the true story. He started: It was a day of a lot of dying. His fellow soldiers were falling all around him. After and during the battle a small group of soldiers put up the flag to show the ships and other soldiers that they had taken that part of the island. A high ranking military officer was watching with a pair of binoculars from a ship that was just off shore. He was struck by the sight of the flag raising. So after the battle he decided it would make a great photo op to send back home to USA. So he contacted his photographer to meet him on shore. The original men were no longer

there that raised the flag so he asked some soldiers that were there to pose for the picture. He had acquired a much larger flag for the photo op. They took the picture which you see today but without the original soldiers in it. According to this veteran some of the original men were fighting on the other side of the island while the picture was being taken. This veteran telling the story said he would be able to rest better after he told the story for his comrades who had all passed away. I was touch by his story. I recently went to the internet and acquired some information so I will inject into the story here. Because of this story, history was changed. You will also see that the Marine Corps investigated and corrected the original story.

Off the internet:

There were six Flag Raisers on the famous Iwo Jima photo, four in the front line and two in back. The front four are (left

to right) Ira Hayes, Franklin Sousley, Harold Schultz and Harlon Block. The back two are Michael Strank (behind Sousley) and Rene Gagnon (behind Schultz). Strank, Block and Sousley would die shortly afterwards. Bradley, Hayes and Gagnon became national heroes within weeks.

2016 update: The Marine Corps investigated and determined that Harold Henry Schultz was among the 6 in the famous photograph of the 2nd flag raising instead of John Bradley.

Publishers Note: This Publisher thanks all who have sacrificed themselves and family member sacrifices to keep America Great and Keep America Safe.

■ A.J. "Tony" Powell ■

AS I SEE IT

by A.J.(Tony) Powell
Medicare For All?

President Donald Trump says he has a better plan than any other – We'll see!

In the meantime, 'two-out-of-three' Republicans don't care if their fellow Americans have Health Care or not. They think that 'Medicare-For-All' is a non-starter.

They seem overlook the fact that, in America, almost no-one goes without. The uninsured can go to the emergency room and demand immediate attention or do without.

This, of course, is encouraged by the Medical Industry which rakes in \$10,000, \$20,000, \$30,000 PER DAY for each Walk-In!

One survey reported that almost half of the respondents said that they are "financially burdened" by medical bills. Any employers health plan can cost about \$20,000 dollars a year, with ruinous co payments and deductibles.

But almost all of the 'Over-65's' say they are 'OK' with the system. Obviously because they get a 'free-ride' – thanks to Medicare.

Republicans claim that Americans would lose their existing health insurance and have to change doctors. And, they say, there would be a huge tax increase to cover the cost of any Government Health Care Program..

This survey said that almost One Third of all Americans think we need a completely new system. About 40% say we need to improve the existing system. Another 30% think that the system is good as it is. But a

miniscule 4% think that no improvements are needed at all.

Most of the Democrat Presidential candidates say that 'A Single-Payer, Medicare for All' system is the only way to go.

Their proposed Health Care System would provide Health Care for everyone. Unfortunately, the Democrats also want to 'outlaw' private health insurance. But Doctors and Hospitals would stay private.

This idea dates back to President Franklin Delano Roosevelt who gets credit for Social Security, but his attempts to include a 'National Health Service' were defeated by doctors and the drug industry.

People would no longer be tied to inadequate coverage from their employer.

And the benefits would be a lot more generous than we have right now.

Also workers would not have to pay any part of the premium or huge deductibles

How would we pay for 'Universal Health Care'? -

It would not be through tax increases because the 'premiums' are the cost of services, not the 'Tax & Spend' Circus we have now.

How about the government reallocating the estimated \$4 trillion a year which is the cost of health care right now?

Unfortunately, the Democrats also want to 'outlaw' private health insurance, which is an unnecessary hindrance to getting the laws changed.

Why would an American Citizen be prohibited from buying whatever insurance

they want, for any reason?

As I see it, everyone is required to pay into Social Security, but they are not banned from making whatever financial plans for retirement that they choose.

Why does Health Care Insurance have to be any different?

Universal Health Care Insurance -vs- Private Health Care Insurance – It's "As Well As" NOT "Instead Of".

'til next time

Celebrating Independence

By Blanca Taylor

Social Security Public Affairs Specialist
July 4th brings family and friends together, as well as neighbors, to celebrate that we're

all part of a community. Everyone pitches in, combining their resources — great food, music, and displays — to lift our spirits.

Social Security has been helping people maintain their independence for over 80 years. In that time, we've made it even easier for you to access the programs and benefits you might need. Today, applying online is a fast way to get those crucial benefits.

Here are some of the benefits you can apply for:

Retirement or Spouse's Benefits – You must be at least 61 years and 9 months old and want your benefits to start no more than four months in the future. Apply at www.socialsecurity.gov/retireonline.

Disability – You can apply online for disability benefits. Apply for Disability at

Florida State Senate

DENNIS K. BAXLEY

Dear Friends,
Let me begin by telling you that it is truly an honor and privilege to be serving you in the Florida Senate. The people in my district, in hometown America, are a salt-of-the-earth, hardworking people who love liberty and freedom. It is such a pleasure to sit in your Senate seat and advocate for those principles you hold dear.

Despite you may (or may not) hear from the liberal media about our work in Tallahassee, your Senator, along with great leadership in the Florida Senate, accomplished much for the citizens of the State of Florida. Even though many major news outlets wish to paint a bleaker picture, there have been many advocacy groups and organizations from across the State of Florida that have chosen to celebrate our success from the past few

months and offer recognition on our behalf.

This past year, your Senator was recognized by the Space Coast Public Service Awards & Hall of Fame with the Distinguished Merit Award. The purpose of this is to celebrate the value and virtue of the highest standards of public service and commends those professionals who have performed with exceptional skill, technical expertise, commitment, and innovation while demonstrating sustainable results. A special thank you to Sheriff Wayne Ivey of Brevard County for this recognition.

We just received word a few days ago that your Senator has received another "A" grade from the Florida Chamber of Commerce. It was pleasure to partner with the Florida

Chamber on number of different policy areas that would help to lower the cost of living and cost of doing business on families and job creators, while also preparing for future growth and protecting Florida's constitution.

Also, the Foundation for Florida's Future selected your Senator to the 2019 Report Card Honor Roll, and was given the highest grade possible. The Foundation advances policies that challenge the status quo – policies and tirelessly advocates for every Florida child to have access to a quality education that prepares them for lifelong success. The Foundations Honor Roll recognizes those policymakers who took bold action to pass student-centered legislation during the 2019 legislative session.

Finally, your Senator received the Outstanding Legislator Award from the Association of Florida Community Developers (AFCD) for our commitment to providing an effective, efficient, and responsible planning and policy framework that will support economic development while protecting Florida's many natural assets. The AFCD exists to provide a leadership role in the creation of quality community development and the formulation of a responsible approach to the planning and development of Florida's future.

Thank you for partnering with me in this fight to preserve faith, family, freedom, opportunity, and life itself. As always, if this office can be of any assistance to you, please do not hesitate to contact me.

Dennis Baxley

PUBLISHER'S NOTES

The oldest computer can be traced back to Adam and Eve. Surprise! It was an Apple. It had extremely limited memory. Just one byte. Then everything crashed.

Sanders, Harris, Booker and Warren are pushing the Democratic party off the cliff and re-Identifying the Party. I was a lifelong Democrat coming from my Family upbringing. This very thing they are doing now is what help me make up my mind this was not the party for me. Obama started the move to the left. Moving to a different party was a traumatic move because of family. A few of my family have opened their eyes, others have not. It is their choice, I don't mind, they are still family. I have many friends who have different views.

Believe it or not? A KGB defector Yuri Bezmenovs warned America about brain washing in the schools and colleges. One of

the other things they are being taught is to use the word "racist".

American values are under attack. If you push too hard something has to give or break. I hope it is not our form of government. Respect the people in office and vote with your heart and brain.

Many years ago while working at a daily newspaper, there was a young Englishman working alongside of me. He got mad one day and said he did not like our country. I said "Then why don't you get out and go back to where you come from". He said "I will" and he did. He went back to England and within a year and a half he was back. He worked two jobs for a year to make enough money after taxes to move back to the good old USA. The taxes had double since he left.

In the Good Old USA some colleges are teaching students the socialist side of a country is good and they have a better way to run it. Free is not always good. That is how they get control of you. The colleges that are doing that are doing a great dis-service to

our country and our wellbeing. I believe in giving someone a hand up but not a handout.

The way it affects the media? There is a large majority of business people. While talking to a news person, radio, newspaper, television, magazine, etc, they see opportunity for free coverage or press release. I ask how do you think the news continues to bring you the news? Through paid advertising! If you are a current advertiser then yes ask for a free press release. You help to support the news media. When I work out among business people at least one business person asks or hints about free coverage, sometimes it's many or even a friend. I cannot survive running free press releases. So before you ask or hint please keep that in mind. The media can't survive on free!

China: One of the big complaints the farmers have is they sell grain or goods to China buyers and after they receive the goods they say the quality is not good so they down grade the quality and pay less then they originally agreed. The farmer has no come back. If they lodge a complaint China buyers won't buy from that farmer next time. They just go beat another farmer

out of revenue.

We have another Newspaper Conference coming up in August. We have entered a few of our pictures, ads, story's and etc. I hope the judges are good to us this year.

Dennis McGee left presenting an award to Tom Loury (TomL Publishing)

The following is a presentation speech given by Sue Kelley executive Director.

"We all know Tom as that guy who takes our pictures each month at this lunch. But did you know:

Tom Loury is the owner of the TOML Publishing LLC and produces the award winning newspapers The Lady Lake Magazine, Village Spectator, Ocala DownTown and Seniors Voice of Ocala each month.

And that Tom posts at least one picture of a chamber event on his front page each

month, helping to build brand awareness for our chamber?

And that Tom has been a member in good standing with the Lady Lake Chamber since 2004?

And that Tom is a past President of the Lady Lake Chamber for two years.

Though Tom is not always front and center he is an EXTREMELY important chamber partner and therefore Tom, we are awarding you this award: Distinguished Member Award for Outstanding Service and Leadership to the Lady Lake Chamber since 2004."

TomL says: Thank You Chamber for all

A Simple Examination Could Save Your Life

By Dr. Matt Leavitt

A trip to the dermatologist has traditionally involved treatment for a specific skin problem like a rash, acne or a wart. Increasingly however patients are seeking care for a much more serious problem: skin cancer, which will affect one in five Americans in their lifetime.

This alarming increase in skin cancer incidence is leading board-certified dermatologists to take a proactive approach – urging patients to get full body examinations to identify potential skin cancers anywhere on the body, including areas where patients might not think skin cancer could occur.

The exam is simple, quick, and painless – but priceless for the early detection it offers.

More than 3 million people will be diagnosed with skin cancer this year, including nearly 200,000 Americans diagnosed with the deadliest form of skin cancer, melanoma.

When melanoma is detected early through exams like the Total-Body Skin Cancer ExamSM offered at Advanced Dermatology, survival rates approach 99 percent. When detected at advanced stages, survival rates plummet to just 15 percent.

Because of the importance of early detection, health officials join together to mark Skin Cancer Awareness Month each year.

Who is at risk for skin cancer?

The factors that put people at high risk for skin cancer include a history of sunburns with blisters at any point in life, spending significant time outdoors for work or

recreation, or having light colored hair or fair skin. People over 50 years old are also at higher risk, and men are more likely than women to get the disease. Anyone with a history of using tanning beds, which have been found to dramatically increase the cancer risk, is at greater risk.

Experts say it takes only one bad sunburn to double a person's chance of getting melanoma.

Melanoma can affect anyone, regardless of race or gender. Melanoma can develop anywhere on the body – scalp, nails, feet, mouth, even the eyes. A common misconception is that melanoma only occurs on skin that has had extensive sun exposure. As many as three out of ten melanomas arise in completely sun-protected parts of the body. An annual Total-Body Skin Cancer Exam ensures that even these 'hidden' melanomas do not go undetected.

While detection is critical for problems created in the past, protection is the important theme of what to do to maintain your health in the future.

To protect your skin and your health, Advanced Dermatology recommends:

Moles or growths that change, itch or bleed could be early warning signs of melanoma. Get them checked as soon as possible by a –board-certified dermatologist.

Appropriate sunscreen use. Sunscreen has been shown to protect against the development of skin cancer.

Seek shade when possible, cover up with clothing and wear sunglasses and wide brim hats when in the sun.

Avoid tanning beds. Indoor tanning beds are harmful to your skin and may cause cancer, according to the Melanoma Research Foundation. Young people using tanning beds are 8 times more likely to develop melanoma.

Getting outdoors and being active in the sun is enjoyable and promotes good health. But it's important to get an annual skin exam and take a few proactive steps to ensure your health is protected.

Dr. Matt Leavitt is Founder and CEO of Advanced Dermatology and Cosmetic Surgery, which offers the Total-Body Skin Cancer ExamSM at offices in The Villages. For more information on protecting your skin, please visit

www.AdvancedDerm.com

CHIEF ROBERT TEMPESTA.

PRACTICE PRECAUTION - PREVENT A DROWNING TRAGEDY

Florida loses more children under age five to drowning than any other state.

Annually in Florida, enough children to fill three to four preschool classrooms drown and do not live to see their fifth birthday.

It only takes a minute. You look away, you may not hear the splash and your child is nowhere in sight. Drowning – the harsh reality of losing a child in as little as 20 seconds.

Sadly, there are approximately 3500 fatal unintentional (non-boating) drowning deaths a year in the United States. The Lady Lake Police Department is committed to educating parents and caregivers about taking precautions to help end these preventable tragedies.

Living in Central Florida, we are surrounded by water. Although children may know how to swim, if left unsupervised, they can drown in less than two inches of water. When participating in outdoor water activities, I encourage you to follow these safety-conscious behaviors:

- NEVER leave children unsupervised in or around a body of water - even for a moment.
- Children can drown in as little as two

inches of water in less than one minute.

- Install a self-closing gate or child safety fence around the pool.
- Alarm every door leading to water to alert you if a child has gone outside.
- Teach children water and swimming skills as soon as they can crawl.
- During pool parties or family fun gatherings, designate an adult to watch the children.
- Remove any toys that may attract children to the pool area.
- Install a pool cover to securely cover the water area.
- Install a poolside, cordless phone.
- Keep lifesaving equipment - a pole, life preserver and rope - in the pool area.
- Children with long hair should clip it back or wear a cap in the pool.
- Avoid keeping water in buckets or other large containers when toddlers are home.
- Don't rely on flotation devices to protect your children in the water.

Drowning Prevention Checklist

- CONSTANT adult supervision by an adult who knows how to swim
- Childproof locks on all doors leading to water
- Gate or fence surrounding water
- Gate or fence is self-closing with a lock
- Pool cover is in use

- Alarms for doors and windows leading to pool are activated
- Child has completed swim lessons
- Above-ground pool stairs removed when pool not in use
- Lifesaving equipment in pool area
- Pool chemicals and supplies are locked in a secure area
- Child is watched in bathtub at all times
- Parent and/or caregiver know CPR

While you are out enjoying a fun day in the water this summer, please remember to be responsible and practice safety. Make a commitment to safeguard our children from becoming victims of this entirely preventable tragedy.

Stay safe and enjoy your summer!

Attorney General Moody

Robocalls

Robocalls are a growing problem nationwide. Not only are they annoying, the calls are often part of a scam designed to trick consumers into parting with their hard-earned cash. My office is working diligently with our federal partners to stop these illegal calls, and this week, we joined the Federal Trade Commission in an effort to block one billion robocalls nationwide as part of Operation Call it Quits.

The robocall crackdown involved more than 90 actions across the country. As part of the crackdown, our office took action against three illegal operations targeting Floridians. Many of the victims of these illegal robocalls were seniors who had registered their phone numbers on the Do Not Call registry.

The calls purported to offer free products, but when consumers signed up they were billed monthly charges. Some offered credit card interest-rate-reduction services guaranteeing that consumers would save thousands if they would pay an upfront fee.

Working with the FTC, we shut down these scams, securing money judgments valued in the millions of dollars against the

defendants and in one of the cases, provided an average of a \$1,000 each in consumer refunds. [This nationwide effort](#) is just the latest action our office has taken to stop illegal robocalls.

Earlier this year, I urged Congress to [enact the TRACED Act](#) to reduce the number of illegal robocalls and fight spoofing—the practice of using technology to disguise a caller's phone number. Last month, our office advocated for the Federal Communications Commission to [enforce rules against caller ID spoofing](#).

There were more than 48 billion robocalls in 2018. Robocalls remain the number one source of consumer complaints received by the FTC and FCC, resulting in millions in consumer losses every year. It will take a massive collaborative effort to stop illegal robocalls, but we must continue to work together toward this end—for a stronger, safer Florida.

Scam Stopper Workshop

TALLAHASSEE, Fla.—Attorney General Ashley Moody today presented Seniors vs. Crime volunteer Bryan Lifsey the 2018-2019 Advocate of the Year Award for working to protect seniors from scams. Lifsey is one of five Seniors vs. Crime volunteer sleuths nominated for the award. These Super Senior Sleuths are taking extraordinary steps to assist consumers through Attorney General Moody's Seniors

vs. Crime Project.

Attorney General Ashley Moody said, “I am thrilled to present our inaugural Senior Sleuth Advocate of the Year Award to Bryan Lifsey. Bryan volunteers his time with our Seniors vs. Crime Program to help seniors and stop scams targeting older Floridians at our regional office in The Villages. Florida is lucky to have such dedicated volunteers like Bryan, our other Super Senior Sleuths and every volunteer who gives their time and talents to help our office protect vulnerable Floridians.”

Lifsey continues to serve as a Senior Sleuth, volunteering with Seniors vs. Crime since 2006. Lifsey manages The Villages office and is a veteran of the U.S. Army.

Lifsey is one of five volunteers recognized today as a Super Senior Sleuth. Attorney General Moody presented each of these remarkable volunteers an award, and all were nominees for 2018-2019 Advocate of the Year Award. The additional Super Senior

Sleuth honored today are:

[Alan Campbell](#), who volunteers at the Seniors vs. Crime North Miami Beach office;

[Chuck Sheehan](#), who volunteers at the Seniors vs. Crime Fernandina Beach office;

[Jay Todras](#), who volunteers at the Seniors vs. Crime west Polk County office; and

[Kim Mitchell](#), who volunteers at the Seniors vs. Crime Tallahassee office.

According to the Seniors vs. Crime Annual Report, Senior Sleuths worked more than 2,000 cases of reported fraud last year, resulting in \$1,146,057 in recoveries. The volunteers also provide support to the Attorney General's new Senior Protection Team.

The awards ceremony followed Attorney General Moody's Senior Scam Stopper Workshop in The Villages, where Florida seniors learned about fighting fraud and identifying scams.

Lady Lake Chamber Business to Business Expo

Lady Lake Chamber Business to Business Expo was a great success, with over 50 vendors exhibited. It is an expo not open to the public but to the businesses that participate.

Let me try to explain how it works. Say you have eight rows of exhibitors. Four of the rows go to the other four rows to listen to their information. In a couple of minutes a bell rings and you move on to the next business. That continues until every business person in the first four rows sees everyone in the second four rows. At this point half of the people have seen half of the businesses. You then do the same thing in reverse.

There were plenty of volunteers helping. Most were Lady Lake Chamber Ambassadors. The pictures you see are compliments of Village Spectator & Lady Lake Magazine.

The event is held every year. Watch for the announcement in this paper next year.

Disclaimer: We tried to put the name of the business with the picture. There were a few we could not ID. For that we apologize!

LETTERS TO THE EDITOR

To the Editor

To put it lightly we are all scoundrels at heart?

For the past several years I have been wrestling with that very issue. When I was 40 I was fortunate enough to be able to go to college, and enrolled in the political science program with a view toward running for office some day. I was an original member of the Women's Campaign School at Yale University. However, God put his finger in my life, and it was not possible to follow that path.

It has crossed my mind often, if I had succeeded, and was elected, was I knowledgeable enough to remain honest? Would I have been honest enough to resist temptation, sans the knowledge I now have?

With the amount and kind of knowledge I have managed to accumulate through just reading extensively, my answer is unequivocally: YES. Nothing would tempt me now, money is not as important as knowledge. I am comfortable, and that is all I require. Ostentation could not make me any happier than I now am. How many people know the extent of the corruption in the government? The vote is the only measuring stick we have to judge that issue.

It takes knowledge, and the library, and book stores are my best friends. If this helps one person, it will be a source of great satisfaction. This has been my goal in life for 50 years.

Humans can build a better world, but the power lusters know how to keep us dumbed down, we need to do an end run around their plan.

Give knowledge a higher priority, seek it, devour it as if it were gold, and then use it to make a better world.

D.I.L.

Letter to the editor

The one day privacy law is widely known as the abortion law. You have an abortion one day. And Roe vs. Wade applies then.

Why aren't women in control of their bodies on the day of conception as well? Make it a two day law? It seems feminists want it both ways.

Some women were in control of their bodies before anyone ever thought of this

right to privacy. Women have always had the right and responsibility, and exercised it. We decided if we wanted 3, or 6, or 12 children.

Roe vs. Wade only supplants the right to responsibility. That is the crux of feminists, females wanting special dispensation from responsibility. Look at the mess they make of the things they touch.

Equal rights for all are fair. However, that is not what feminism is all about. It is about the supplantation by the Macho broads for the Macho dudes. Feminism is about Power Lust women. Feminists want power, money and, sex just like the Macho Dudes. The female of the species is always deadlier, the toxics. Other perspectives are as legitimate as feminist views, and deserve a hearing.

Strong women, smart women can make it on their own. Compete fairly. That is not at all what feminism is about. Suffragettes had little in common with feminists. Suffragettes wanted the vote, but there was no mention of qualifications to vote. All voters need to be informed. That should have been included in the right to vote petition. Some form of knowledge requirement. Uninformed voters are a detriment to society. Some of my friends rely on my research for a guide to vote, think they should invest the time and effort to acquaint themselves with candidates and issues, voting is too important.

Look at our current congress. Laws, votes, and responsibilities have consequences. We need to do research before we embrace issues, and candidates. Freedom requires diligence against the Power Lust corrupters.

To the Editor

There are evolving conditions in society that facilitate changes in society, in fact are demanded they occur and allow for economic changes and advances. Economists study these things, and F.A. Hayek's book does an in-depth history of economics. Governments cannot accommodate these changes. Ergo no government can adequately run an economic system. The evolutionary changes that occur in society are beyond the

scope of governmental capabilities.

Do you think economists who tear these matters to shreds looking for workable economic solutions can be so wrong, and power lusting bureaucrats right?

Economists use many many istics, and isms known only to themselves, so it's difficult to follow their writings. Read *The Fatal Conceit*, by Brantley, Hayek became ill, Brantley Finished the book} and encountered this problem. Did research of the istics and isms But when I read it a second time things began to make much more sense.

Who are you willing trust? Economists {there are good and bad economists} or powerluster's?

Certain there are other economists who go on even beyond Hayek, but he will have to suffice for now. He covers economics pretty thoroughly from antiquity to the present. He even explains why Aristotle and Plato are dated in their body of ideas. Evolution accounts for much of what drives economies. Economics are not that easy to follow.

Economists vote for capitalism as the best economic system devised thus far. Make no mistake power luster's have corrupted capitalism as well, but it can be fixed if we get rid of the legal plunder they have injected into the system, plus corruption of every stripe. We can tear economics apart, too.

The best place to keep up with all the corruption is *Foreign Affairs Magazine*, the CFR publication. You might want to take a Tum before you tackle those articles.

The customer is king was the mantra, not any longer. Corporations rule. This flip flop is not how business should operate. We allow it with our silence.

D.I.L.

2019 Human Trafficking Summit

Planning for our 2019 Human Trafficking Summit

Planning for our 2019 Human Trafficking Summit is underway, and we are accepting nominations now for this year's Summit awards. Florida is fortunate to have so many people dedicated to the fight to end human

trafficking and help trafficking survivors heal. I look forward to recognizing some of these outstanding Floridians when we host the Summit this fall.

If you know someone who is committed to the fight to stop human trafficking or strives to help survivors of this atrocious crime get back on their feet, please nominate them so we can recognize their efforts.

The following four awards will be presented during the summit:

- Community Advocate of the Year;
- Law Enforcement Officer of the Year;
- Prosecutor of the Year; and
- Survivor Advocate of the Year.

Award nominations should be submitted to

OAGHT.Summit@MyFloridaLegal.com

The Summit will be held on Monday, Sept. 30, 2019, at the Hyatt Regency Orlando. Information including the agenda, hotel information, registration information and speaker proposals can be found at

<http://humantraffickingsummit.com/>

Speaker proposals for the Summit will be accepted through the end of the month. Registration opens on July 1, 2019.

The Annual Human Trafficking Summit is hosted by our office, the Florida Department of Children and Families, and the Florida Department of Juvenile Justice. This year's collegiate sponsor is the University of Central Florida.

I hope you can attend this important gathering and join our fight to end human trafficking, but you don't have to wait till the Summit to get involved. Please learn the signs of trafficking now and know where to report it by visiting YouCanStopHT.com.

Working together, we will build a stronger, safer Florida.

Bills to Support Florida's Veterans

Tampa, Fla. – Today, Governor Ron DeSantis signed CS/CS/HB 501: Alternative Treatment Options for Veterans and CS/CS/HB 427: Honor and Remember Flag, at the University of South Florida's Office of Veteran Success.

“Here in Florida, we take great pride in being the most veteran-friendly state in the nation and I am proud to sign these two bills today to support our veterans,” said **Governor DeSantis**. “With more than 1.5 million veterans living in Florida, this community makes up an important part of our state's identity. While we may never be able to fully repay these men and women for their sacrifices, we will continue to do everything we can to support them and their families.”

“I'm proud of Governor DeSantis, our

Cabinet and legislature for supporting FDVA and the 1.5 million veterans of our state,” said **Danny Burgess, Executive Director of the Florida Department of Veterans' Affairs**. “Together, we will work to ensure Florida continues to lead the charge as the most veteran-friendly state in the nation.”

CS/CS/HB 501, sponsored by Representative Mel Ponder and Senator Tom Wright, creates a \$200,000 pilot program focused on treating post-traumatic stress and traumatic brain injuries in veterans using alternative therapies. It expands available therapies for eligible veterans to include accelerated resolution therapy, equine therapy, music therapy, service animal training therapy and hyperbaric oxygen therapy at registered facilities.

“I would like to thank Governor DeSantis for signing this good piece of legislation today,” said **Representative Mel Ponder**. “Too many veterans are returning home with wounds from conflict, after laying their lives on the line for our freedom, to insufficient care. We need to do better to honor and thank the sacrifices these heroes have made for us and this legislation is a step in the right direction.”

“I'm so proud Governor DeSantis signed the alternative treatments bill today,” said **Senator Tom Wright**. “This bill will allow us to provide the treatments our veterans need to cure PTSD/TBI. These men and women have served us proudly and with honor and now it's our time to serve them.”

CS/CS/HB 427, sponsored by Representative Tommy Gregory and Senator Joe Gruters, allows the flying of a new flag, the Honor and Remember Flag, to serve as the state's emblem of the service and sacrifice of the brave men and women of the United States Armed Forces who have given their lives in the line of duty. It allows the flag to be flown on Veterans Day, Gold Star Mother's Day and a day on which a member of the United States Armed Forces who is a resident of Florida loses his or her life.

“It was my honor, as a retired Air Force officer and member of the Legislature, to ask the State of Florida to display this flag to honor the men and women who gave their lives defending our country and recognize the sacrifices of Gold Star families,” said **Representative Tommy Gregory**.

“It was an honor to be a part of this piece of legislation that recognizes and remembers our fellow Floridians, Gold Star Families, and Fallen Heroes who gave their lives so we can live ours,” said **Senator Joe Gruters**.

Governor DeSantis was joined at the bill signing by FDVA Executive Director Danny Burgess, Bryan Anderson of non-profit Veterans Alternative, Gold Star father Kris Hager, Senators Tom Wright and Kelli Stargel, Representatives Tommy Gregory, Jamie Grant, Jennifer Webb and Fentrice Driskell, and Representative-elect Randy Maggard.

A Good-For-You, On-The-Go Snack

Olives: A Good-For-You, On-The-Go Snack

(NAPSI)—Among the tastiest and most versatile fruits on Earth, olives are enjoyed by many cultures around the world. They have been in existence for 8,000 years, and while olives are not indigenous to the Americas, they have been in the New World for a good long time.

Then

It was the Spanish who introduced olives to Peru and Argentina in the 1500s. As time passed, olive trees made their way up the Pacific Coast through Mexico when Spanish missionaries brought them to California in 1769.

However, it wasn't until the 1900s when commercial olive production began in the United States, thanks to a German immigrant woman named Freda Ehmman. She had a small grove and began experimenting with 280 gallons of olives on her back porch in Oakland, California, thus inventing the ripe olive style that Americans have come to know and love.

Now

Today, from Washington to Florida and in every state in between, olives are found on pizzas, pastas, salads, tacos and in casseroles, but many people prefer the pleasure of eating an olive in its simplest form.

Nutritious and Delicious

Olives are loaded with phytonutrients,

rich with omega-3s, low in carbohydrates and only a few calories a pop, so you can enjoy them every day.

To make that easier than ever, Lindsay created Snack and Go!, snack-size cups that can be easily packed in a lunchbox, taken to work for when those salty cravings kick in, or stashed in the car to satisfy hunger pangs that hit between school and soccer practice. They're liquid-free so there's no mess. Whether you like black ripe olives whole or sliced, Kalamatas or pimiento stuffed, Lindsay has you covered.

Fun Facts About Olives

- A Manzanilla tree can grow over 7,000 olives on average.
- An olive tree can live for more than 1,000 years.
- The folks at Lindsay pit 1,800 olives per minute.

What They Are Saying

Boeing Space and Launch Headquarters Moving to Florida's Space Coast

Tallahassee, Fla. – Today, Boeing announced that it is moving its Space and Launch Headquarters from Arlington, Va. to Titusville on Florida's Space Coast. Below is what Governor DeSantis, state leaders and elected officials are saying about this important announcement:

"Florida is the world's premiere gateway to space and our commercial space industry continues to flourish," said **Governor DeSantis**. "Boeing's decision to move its Space and Launch headquarters from Arlington, Virginia to Titusville affirms our state's position as a national leader in innovation and job growth and will bring increased investment to the Space Coast."

"We are thrilled Boeing has made the decision to relocate to Titusville, Florida," said **Lieutenant Governor Jeanette Nuñez**. "It is further evidence that Florida is the ideal environment for the space industry to continue thriving. We welcome Boeing and encourage others to enjoy the benefits our great state has to offer."

"The relocation of the Boeing Defense, Space & Security Space and Launch headquarters to Florida is more of a homecoming than a move to someplace new," said **Boeing Defense, Space & Security President and CEO Leanne Caret**. "Boeing helped build the Space Coast during the first Space Age and has long been a leading presence in this storied community. As we move forward into the second Space Age, Boeing will build the future again from this base across our portfolio of human spaceflight, military and commercial space programs."

"Boeing's decision to move its Space and Launch headquarters to Titusville further solidifies Florida's position in becoming the global leader in space exploration, national security and space commerce," said **Frank DiBello, President and CEO of Space Florida**. "The Cape Canaveral Spaceport is well-positioned to lead the future of this industry, and we join Governor DeSantis in

welcoming the headquarters to the State. Space Florida looks forward to witnessing Boeing expand its already storied presence here on the Space Coast."

"This is fantastic news for Florida and we are excited to once again partner with Boeing to bring jobs to Florida," said **Tim Vanderhoof, Senior Vice President for Business Development at Enterprise Florida**. "It speaks volumes to Florida's standing as a premier business state when a global leader like Boeing decides to make such a significant commitment. I thank them for their continued partnership and look forward to seeing their growth on the Space Coast."

"I am so pleased that Boeing has chosen to join the other major manufacturers in locating their headquarters to the Space Coast," said **state Senator Tom Wright**. "As our space industry continues to thrive, we look forward to the increased investment and opportunities this move will provide for Floridians and their families. Thank you to Boeing for realizing the potential Florida has to offer."

"Florida's space and aviation industries are thriving, which has never been more evident than with Boeing's announcement this morning," said **state Senator Debbie Mayfield**. "Governor DeSantis has prioritized the Space Coast and the relocation of Boeing's space and launch headquarters to Titusville will enhance our economy and provide job opportunities for Floridians."

"I commend and thank Boeing for relocating their space and launch headquarters from Virginia to Florida," said **state Representative Thad Altman**. "This announcement is fantastic news for the men and women who work on our Space Coast. With Governor DeSantis leading the charge, our space industry has never been stronger and I look forward to the positive results this headquarters will bring to the community."

"Boeing undoubtedly made the right decision by relocating their space headquarters to Florida," said **state Representative Randy Fine**. "I would like to thank Governor DeSantis and Boeing for realizing what the Space Coast has to offer. With this announcement, Florida has

solidified itself as a leader in this industry and Florida families will benefit from this great news."

"Boeing's announcement is the latest example of Florida's resurgent commercial aerospace industry," said **state Representative Tyler Sirois**. "I am proud to have this great company grow its footprint on Florida's Space Coast. I share Governor DeSantis' commitment to see Florida lead the way in commercial aerospace—both to grow our economy and advance our national security."

"With today's announcement by Boeing, Florida's space industry is only gaining speed," said **state Representative Rene Plasencia**. "Since taking office, the Governor has made the Space Coast a top priority and we are seeing the results. By relocating their space and launch headquarters to Florida, Boeing understands that Florida is the best place for development and growth."

Unsafe Airbags On U.S. Roads

More Than 17 Million Unsafe Airbags Remain In Vehicles On U.S. Roads

(NAPSI)—Today, in the U.S., more than 17 million recalled Takata airbags remain in vehicles on the road. A defective part inside the airbag can explode when the airbag deploys, potentially shooting sharp metal fragments at the driver and passengers. The National Highway Traffic Safety Administration (NHTSA) has confirmed that 16 people in the U.S. have been killed, and hundreds of others alleged to have been injured, by this defect.

Affected vehicles include those made by BMW, Chrysler, Daimler, Ferrari, Ford, General Motors, Honda, Infiniti, Jaguar, Land Rover, Lexus, Mazda, McLaren, Mercedes-Benz, Mitsubishi, Nissan, Scion, Subaru, Tesla, Toyota and Volkswagen.

Vehicle manufacturers are sending official recall notices to affected consumers. Consumers also get notifications through postcards, e-mail, social media and other forms of communication urging them to contact their dealers immediately to schedule an appointment for a free recall repair.

Even if they haven't received a communication, all vehicle owners should check if their vehicle is affected by the Takata airbag recall by visiting www.SafeAirbags.com or www.NHTSA.gov/Recalls and entering their vehicle identification number (VIN).

Dealerships around the country have replacement parts available, and the free recall repair should take an average of one to several hours depending on vehicle make and model.

"Unfortunately, many consumers are not taking immediate action, either because they have ignored the repeated safety recall notices or do not understand the severity of the situation," said Patrick Juneau, who is leading a nationwide outreach program by SafeAirbags.com.

"It is vitally important for consumers to pay attention to any notifications they receive and to schedule an appointment to have their airbags repaired for FREE. This literally could be a matter of life and death."

The call to action is simple.

If consumers receive a Takata airbag recall notice, letter, postcard or e-mail, they should immediately schedule a free recall repair at a local dealership.

Consumers uncertain whether their vehicles are part of the Takata airbag recall should visit www.SafeAirbags.com. They will be prompted to enter the vehicle identification number (VIN), upload a photo of the license plate, or manually enter the plate number. The website will immediately indicate if the vehicle is currently under recall for defective Takata airbags.

A free smartphone app, Airbag Recall, can also be downloaded, enabling consumers to take a picture of their license plate to immediately determine if a vehicle is under recall.

It takes just a few minutes to determine if a vehicle has a recalled airbag and just a few hours to have an airbag repaired. Take the time to protect yourself, your family and your friends.

For more information, visit www.SafeAirbags.com and www.NHTSA.gov/Recalls.
