## Local Church Damaged by Arsonist

A Catholic Church with predominately mature parishioners always community minded and supportive!

Queen of Peace Catholic Church, 6455 SW State Road 200, Ocala, Florida.

On Saturday, July 11th, around 7:30am, a horrific attack on this peaceful community minded Church. Regardless of your faith or belief, there is no foundation for the criminal act of violence and hate putting innocent lives at risk.

Our Priest witnessed the entire chain of events and I urge you to view the video on YouTube, link and title provided below. The video is an accurate first hand account of the attack on parishioners in the torched church structure and premeditated harm of this individual's act.

As our country, is in biased turmoil over opinion based news and radical politically funded movements, derails the foundation of the United States. The emotionally charged movements seem to have lost focus on right from wrong. Our judicial system seems to undermine law enforcement efforts to keep people safe. Although, the act on Queen of Peace and innocent church members inside worshipping. We must thank GOD and the FIRST RESPONDERS. Marion County Fire Department, Sheriff's Department and 911 for their fast response. Firefighters were on the scene within minutes to contain the heated blaze. Sheriff Deputies transmission of critical information, provided a description of the vehicle and person. The vehicle was seen by

other Deputies. The perpetrator wouldn't stop. Started a dangerous chase down our public streets. Fortunately, the trained Deputy, utilizing the PIT maneuver, which pinned the vehicle minimizing additional injuries. The suspect was apprehended and arrested.

The thought of defunding the Police, Firefighters or any other public safety entities is RECKLESS. In fact our judicial system must protect citizens of their jurisdiction. People need help for mental competency, financial, health and other human needs. This is not about politics, ethnicity, gender or entitlement! It's about people, communities and decency of the human race.

Less than 24 hours after the attack on Queen of Peace. Parishioners gathered in our Parish Hall to worship. Father Patrick O'Doherty, gave a short account of the events, of the previous morning. He did not want us to be angry, mad or sad. He wanted us to be thankful no one was injured but most of all, "WANTED US TO PRAY FOR THE MAN" "that's what we do, is forgive".

Please take time to use the YouTube link: <https://www.youtube.com/watch?v=9RhXZLcDbfU>

YouTube Queen of Peace or titled: "The question today is where is the good news" Publishers Note...

Suspected Arsonist is in Custody. It is said the Church is praying for him!

## Questions Commonly Ask

**Q:** Are hospitals inflating the number of COVID-19 cases and deaths so they can be paid more?

**A:** Recent legislation pays hospitals higher Medicare rates for COVID-19 patients and treatment, but there is no evidence of fraudulent reporting.

It has been rumored that the hospitals get paid extra for COVID-19 patients. Currently Medicare pays \$13,000 when a patient get admitted to the Hospital and \$39,000 if they patient gets put on a ventilator. Is there some fraud going on?

Where ever there is money there is fraud. But there is no evidence of fraud at this time.

\*\*\*\*\*

**Q:** If you are tested positive, does that mean you have COVID-19.

**A:** Not always, there is a chance a positive result means that you have antibodies from an infection with a virus from the same family of viruses called Coronaviruses, such as the one that causes the common cold.

## William Harvey Carney

The first African American to receive the Medal of Honor in the Civil War. Despite the fact that he had been shot many times he would not let the American Flag touch the ground. A true American, what would he say if he was still alive?

### Biography

William Harvey Carney was born as a slave in Norfolk, Virginia, on February 29, 1840. How he made his way to freedom is not certain. According to most accounts, he escaped through the Underground Railroad, and joined his father in Massachusetts. Other members of their family were freed by purchase or by the death of their master.

### Civil War

Carney joined the 54th Massachusetts

Volunteer Infantry in March 1863 as a sergeant. He took part in the July 18, 1863, assault on Fort Wagner in Charleston, South Carolina. His actions there ultimately earned him the Medal of Honor. When the color guard was killed, Carney retrieved the U.S. flag and marched forward with it, despite serious wounds. When the Union troops were forced to retreat under fire, he struggled back across the battlefield, eventually returning to his own lines and turning over the colors to another survivor of the 54th, saying, "Boys, I only did my duty; the old flag never touched the ground!" He received an honorable discharge due to disability from his wounds in June 1864.

## AS I SEE IT

### Questions Not Asked-Questions Not Answered!

Q-How many Villagers are infected with the COVID 19 virus?

-Some suggest that as many as 15,600 infectious residents are mixing with their neighbors, friends and family every day!

But, facts are few!

Q-From a reader, *I would like to see the ratio of positive tests to negative tests.*"

-Local news sources report only 320 Covid infections in the 32162/32162 zip-code areas.

-But another said that there are 1,460 cases in and around The Villages.

(The total number of tests in The Villages is unknown)

The State of Florida shows:-

Total Number of Tests Administered – 3,200,000

Positive Tests about 380,000.

Deaths about 5,400.

Negatives are about 2,800,000.

Q-Doesn't that mean that about 12% of those tested are positive?

If the population of Florida is about 22,000,000.

Q-Does that mean that we probably have 2.6 million people infected in Florida?

And, if the same average applies, are there about 15,600 infected Villagers?

Of course, there would be more in that part of The Villages which is located in Lady Lake/Lake County.

An area newspaper stated *Only 1% of the*

*US population has the virus."*

Q-How can we know that until 100% (330+/- Million) have been tested?

Another study reported *6787 infections in a population of 865,000 is extremely low."*

And *"If you figure the percentage of deaths to population that (calculates) to less than 2 one hundredths of a percent."*

Q-Isn't the number of infections relative to the number of tests. Not a population which may or may not be infected?

And yet another *"There are all kinds of testing areas in the Villages."*

Q-Where exactly are they? The Polo Field lasted all of one day?

As I See It, no-one really knows the 'whole truth'.

One side suspects that the number of infections is 'diluted' to help the Republicans. But the Republicans insist that all case reports are complete and accurate.

Truth is that no one knows exactly how many infections and deaths have occurred in the Villages. (or anywhere else either).

Q-Who knows exactly what a N95 mask is?

Google says that they are '95% effective'.

Q-Does that mean that if one uninfected person is masked and the other infected person is not, then there is only a 5% chance of cross-infection?

I don't do math, but that suggests to me that two masked people have a risk of only 0.0025%; infected or not!

Q-Does that mean that, if 330 million Americans wore a mask for a month, there

would be a TOTAL of only 8250 infections and we could get back to making America Great Again?

'til next time, , , , ,

## Century of Care for Disabled Veterans

### DAV Provides a Century of Care for Disabled Veterans

(NAPSI)—From a World War I veteran who lost both legs to a Vietnam vet suffering the effects of Agent Orange to a young Marine with post-traumatic stress disorder finding her way after returning home from Afghanistan—many of America's veterans live with physical, mental and emotional injuries that impact their lives as a result of military service. They often need support with things such as navigating the complex Department of Veterans Affairs system to access veterans benefits, including health care and education benefits or identifying employment opportunities after military service. And because of their service-connected health conditions, they can be

From WWI through today, America's veterans get help, advice and support from DAV and you can be part of the solution.

particularly vulnerable during health epidemics and economic downturns.

Fortunately, DAV (Disabled American Veterans) has been providing a century of care to help disabled veterans of all generations adjust to life back home. For the last 100 years, this nonprofit organization has offered a range of services from assisting

Florida State Senate

## DENNIS K. BAXLEY

Dear Friends,  
Another election season is almost here and your involvement is critical. It seems that we say that every election year and it is just as true today as it ever was. The socialist left is trying to tear down American culture and values. Things that once were the bedrock of our society are shouted down as evil or outdated. Things like, faith, family, freedom,

opportunity and life itself are all under attack by a mob that seeks to reshape our country into a CHAZ, (Capitol Hill Autonomous Zone – Seattle, Washington) where lawlessness, degradation and oppression are celebrated instead. We cannot let them win and we cannot sit at home in 2020.

The COVID situation has caused quite a bit of uncertainty surrounding the upcoming election. Talks of moving elections to an all-mail-in-ballot system have concerned many

people that the other side may be trying to cheat. In Florida in 2018, we saw that two inept Supervisor of Elections in Broward and Palm Beach counties almost throw an entire gubernatorial election because of their incompetence. That following year the Florida Legislature investigated and made a number of changes to ensure that our election process remain safe and secure. As Chair of the Committee on Ethics and Elections in the Florida Senate, your Senator is committed to making sure that it is easy to vote, and very hard to cheat.

In just a few short weeks, millions of Americans will be preparing to cast their vote in a party preference primary. Much of the attention and focus is on the Presidential

race in November, but August is when we will choose who represents our party in the local and state races. These smaller races are so important and will probably have the bigger effect on your day-to-day life. Research these local candidates. Call them and speak with them, most of them are very accessible and ready to speak with reasoned, sensible people in the community. It is ok to disagree with them on some issues, as long as they do not violate your core principles but please do not skip voting because you do not agree on one-hundred percent of everything.

Not voting in August or November is not an option. If you are in the vulnerable population and do not want to risk exposing yourself or others to COVID, then order your vote-by-mail ballot and let your vote be counted. If going to polls is an option for you, then by all means, let that be your first choice. Early voting is great option as well. Usually done one week prior to that Tuesday, early voting lets you choose which day in your schedule is best you while still getting to watch your ballot go in to the tabulating machine to make sure that it is counted. The lines are usually shorter and there will be 5-6 different locations to choose from, as opposed to just one if you voted on Election Day. Your Supervisor of Elections will have those locations posted on their website, or you can call for the information.

Do your research, pay attention to the local races, vote-by-mail, early vote, or show up at your precinct at Election Day and let us continue to make Florida the best place to live, work and raise a family.

Onward & Upward,  
Senator Dennis Baxley

## New Energy Storage

(NAPSI)—Cleaner air can improve public health, maybe even save lives. Fortunately, renewable energy resources—wind, sun, hydropower and the like—are now producing more electricity than coal. That's where innovative energy storage solutions come in. They help create a cleaner world, encouraging investment into clean, green, renewable energy. To help, engineers and policymakers are increasingly turning their attention to energy storage solutions. New bi-partisan efforts in states such as New York and the Trump administration are in alignment to support new energy storage technologies that drastically improve the economics of wind and solar projects.

The global rise in electricity generation from renewable sources has led to increased demand for advanced batteries that can be used to firm up this intermittent supply. This requirement is particularly important in areas where grid connections may be tenuous, unreliable or even non-existent. Additional demand for advanced batteries is

## PUBLISHER'S NOTES

### Money and the lust for power

George Soros is a socialist and the Sponsors of Antifa. He is a card carrying member of several Anti-American groups. He has supported a large number of people with political ambitions. Pictures are circulating of Corey Booker and Alex Soros, Nancy Pelosi and Alex Soros, Hillary Clinton and George Soros, the Lady that accused Judge Kavanaugh of wrong doing and George Soros, connections Robert Soros is married to Adam Schiff's sister and last but not least Chelsea Clinton is married to Mark Mezvinski, George Soros nephew. Small world isn't it!

It is said that George Soros got his money by destabilizing Countries. He wants America!

Are you going to give it to him?

Martin Luther King once said: "We must learn to live together as brothers or perish together as fools."

Villages Fl... I read that an Alligator was apprehended with a Bang Stick. Well I guess he was.

A Bang Stick is a shaft that has a gun mechanism on the end of it. The end has a bullet in it usually a shotgun shell. When you apprehend something with a Bang Stick it blows a hole in it the size of a golfball, usually killing what ever was under the stick!!! I guess it sounded better that they captured it!

Charlie Daniels said in an interview just weeks ago: The description of an American's and America is Freedom and the Pursuit of Happiness. Charlie Daniels was a great entertainer and a "Great American". He will be missed but remembered by his music and his deeds.

\*\*\*\*\*

This COVID-19 is crazy. Marion County as of July 15 is running up in 150 per day. I have had many skeptics calling and writing about the increases. I say this, I have confidence in our Health Department. They have been feeding information every day for months. They give stats on the people testing positive by Town and Zip code. There was a issue brought up during one of my business meeting. If a family of five has one of the family test positive do they count the rest of the family as positive?

\*\*\*\*\*

The incident about the church being burned does not fit Ocala, what is going on? I was always told a long time ago that I-75 brings crimes and good people alike. Fortunately some are just passing through. Then look at the industry it is bringing. Ocala Marion County is a good spot in the state for distribution, recreation, jobs jobs jobs! The unfortunate thing is the traffic, but some road widening and improvements and away we go!

I live on a dead end dirt road, our family has 4 wheel drives and vehicles that are not low to the ground so that if the road gets bad can go through it. I was the only one out there for a mile, now I have people all around me, often trespassing. They have excuses that make sense to them but not to the land owner.

"I lost my drone" "I heard my dog barking over the other side" you know just stuff. Anyway none of then above is agreeable with me. So I say please get out of my tree or don't shoot over my fence you might hit someone. That would be Manslaughter? Prison Time?

Luckily we have dogs and they kind of tell on intruders.

\*\*\*\*\*

Let's hope and pray the schools open and that the Children are all OK. Parents can go back to work. I think it will help the stock market recovery!

## Sweet Potato Yogurt Muffins

(NAPSI)—If you're looking for a healthy start to your day, give California Sweet potato Blueberry Yogurt Muffins a try. Chock full of nutrient-dense ingredients such as blueberries, yogurt and whole wheat, these powerhouse

muffins have a secret ingredient: shredded California sweet potatoes. A designated superfood, California sweet potatoes are loaded with vitamins, minerals and fiber. Plus, they keep the muffins moist and tender and add just the right amount of sweetness.

Bake a dozen (or more) and store in individual bags in the freezer for a healthy portable breakfast the entire household will enjoy.

**California Sweet Potato Blueberry Yogurt Muffins**

*Makes 24 regular or 10 jumbo muffins*

**4 large eggs**

**1 1/2 c plain yogurt**

**1/2 c butter, melted**

**2 tsp vanilla extract**

**2 c all-purpose flour**

**1 1/2 c whole wheat flour**

**2 c shredded sweet potatoes**

**1 c sugar**

**1 1/2 tsp baking powder**

**1/2 tsp baking soda**

**1/2 tsp salt**

**2 c blueberries**

Preheat oven to 375° F. Coat muffin tins with nonstick spray.

In large bowl, whisk eggs, yogurt, butter and vanilla. In medium bowl, combine flours, sweetpotatoes, sugar, baking powder, baking soda and salt. Mix flour mixture into egg mixture. Gently stir in blueberries.

Divide batter between 24 regular or 10 jumbo muffin cups. Bake until golden brown and set, about 25 minutes for regular muffins or 30 for jumbo.

## Work At Home

**Work At Home In Comfort And Safety**  
(NAPSI)—According to Darrell Smith, executive director of the International Window Film Association, window film makes a lot of sense for homeowners eager to save money on their energy bills.

“Solar-control films can block as much as 80 percent of the solar heat coming through glass into a building, decrease the heat load on the air-conditioning system and reduce energy costs,” Smith says.

With more people working and studying from home, window film allows in abundant natural sunlight while blocking 99 percent of the sun's harmful UV rays to better protect the skin (from possible cancer) and eyes (from cataract development), while reducing the fading of floors and furnishings. Smith estimates that 40 to 60 percent of color fading is caused by UV exposure. Windows may also be upgraded for safety, as window film helps to hold glass pieces together if the window is impacted and broken.

For even a 3,000 square foot home, window film may be installed in a day or less with minimal disruption. Window film installers clean the glass before installation,

keep the work space clean and practice safe contact as recommended by the Centers for Disease Control. Find a local dealer/installer at [www.iwfa.com](http://www.iwfa.com).

## Staycation

### Turn Your Summer Vacation Into A Staycation

by Samantha Clayton, certified personal trainer

(NAPSI)—For many people, social distancing brings concern about summer plans. In previous years, summertime was when families planned their vacations. The kids would be out of school, the weather could be fantastic, and the days are longer—allowing optimal time to venture to new places, catch some sun and spend more time with friends and families.

Since you may have already been spending a lot more time with your family than you ever imagined due to coronavirus outbreak, you may be looking for ways to keep your family entertained. Between possibly working from home, managing your kids' schoolwork and maintaining a functioning household, this time probably hasn't felt much like a vacation.

Social distancing guidelines are likely to remain in effect in many places during the summer. Activities and entertainment options, lodging, and dining will be affected. The good news is, you really don't have to totally give up on enjoying the summer at home with your family. Here are some tips to make your staycation exciting for the whole family:

#### Fit Focused Days

Plan hiking trips or long walks or bike rides close to home. Enjoy nearby parks and take time to look over the architecture in your neighborhood. A quick Google search of interesting facts can help you to plan what you want to go to see. Being a tourist in your own community will help you have a greater appreciation for the place. Challenge your kids to identify certain plants, landmarks or wildlife when you're

## CHIEF ROBERT TEMPESTA.

The state of Florida has the second highest total number of heat related deaths of children being left unattended in a vehicle. More than half of vehicular heatstroke cases from 1998 to 2019 were because an

adult forgot about a child, according to NoHeatstroke.org. Additionally, every year pets suffer and die when their guardians make the mistake of leaving them unattended in a parked vehicle to “run in for just a minute” at the local store. The Lady

Lake Police Department is committed to informing and educating parents and pet owners on the dangers of leaving children and pets unattended in a vehicle and taking precautions to help prevent these tragic situations.

Leaving a child or a pet in a hot car even for a short period of time can be dangerous, even if parked in a shade or with the windows cracked. A vehicle's glass transparency allows for the sun's rays to heat up the inside essentially creating a vacuum of heat. Within minutes a car that was just being cooled can experience a spike in temperature. On a sunny day, when outside temperatures are 80 degrees outside, the inside temperature of a vehicle can rise to 99 degrees in 10 minutes and soar up to 114

degrees in 30 minutes. At 90 degrees outside, the inside temperature of a vehicle can rise to 109 degrees in 10 minutes and soar up to 124 degrees in 30 minutes.

A child's body temperature can rise up to five times faster than an adult's. When a core body temperature of 107 degrees Fahrenheit is reached, internal organs begin to shut down leading to death.

**Dogs and cats can't sweat like humans, so they pant to lower their body temperature. If they're inside a car, recycling very hot air, panting gives no relief, and heat stroke can happen quickly.**

**I encourage you to take these safety precautions to help avoid these preventable tragedies:**

- Make it routine to open the back door of your car every time you park.
- Set an alarm on your cell phone or

computer calendar as a reminder to drop your child off at child care. Make the alarm sound different from other alert tones.

- Keep a stuffed animal in the child's car seat. Place it on the front passenger seat as a reminder when the child is in the back seat.
- Ask your babysitter or child care provider to call you if your child hasn't arrived as scheduled.
- If you are driving a child, put something you need in the back seat so you will need to open the back door. Items may include a cellphone, handbag, employee badges, or any other item you would need at your destination.

**What to do if you find a pet confined to a vehicle:**

- Take the vehicle's make, model, color and license plate number and notify your local Animal Control or Police Department.
- Once removed from the vehicle, provide water to drink and if possible, immerse in cool water for up to two minutes to gradually lower the body temperature.
- Watch for signs and symptoms of heatstroke such as restlessness, thick saliva, heavy panting, glazed eyes, dark tongue, rapid heartbeat, difficulty breathing, dizziness, seizure and lack of coordination. If a dog shows any of these symptoms remove it from the heat and transport to a veterinarian immediately.

Practice safety awareness and follow these precautions this summer season with your children and your pets to prevent a vehicle heat-related tragedy from happening to your family. Stay safe out there!

## Staying Healthy in Stressful Times

(NAPSI)—You may be feeling stressed during these challenging times, but stress can affect your physical and emotional health. Learn how to manage your stress so that you can stay healthy and cope with life's

challenges.

**What is stress?**

Stress is how your brain and body respond to a challenge. Any type of challenge—such as performance at work or school, a significant life change, or a traumatic event—can be stressful.

Your body reacts to stress by releasing hormones. These hormones make your brain more alert, cause your muscles to tense, and increase your pulse. In the short term, these reactions are good because they can help you handle the situation causing stress. This is your body's way of protecting itself. However, too much stress all at once or over time (chronic stress) can threaten your health.

Everyone experiences stress from time to time, but your response to stress may be different. Some people may experience headaches or an upset stomach. Others may get muscle aches or chest pain. Stress can also disturb your sleep, reducing your energy and making it tough to keep active when awake. In addition, stress can lead to weight loss or weight gain. Over time, stress

# Restaurant Reviews

Visited Harry's for the first time since the Pandemic Started. Seated fast and all employees wearing masks with the Restuarant practicing all safety precautions. Limited menu and still something for everyone.

My friends ordered Jambalaya, always yummy with plenty of ingredients making a full dinner. To my surprise two of my friends ordered the 1/2 pound hamburger. The hamburgers would shame the Hamburger Joints in town, large patty with all the veggies fix-in and a side dish. I ordered the Shrimp and Scallops Orleans with Grit Cakes. Just enough spicy zing included a side of Red Beans and Rice.

The server was Robert gave us his personal attention, making us feel, we owned the place. Never missed a beat our drink never hit bottom.

An excellent dining experience for a special occasion or to treat yourself, family and friends!

M. Frank Turner

7/10/2020  
Scrambles Cafe  
3233 SE Maricamp Road #401  
Ocala, FL 34471  
352-694-4405

Stopped in for breakfast and impressed the second we walked in. The decor had framed pictures of Florida landmarks, Gainesville, Ocala in the early days and

surrounding areas. Restaurant practiced all Social Distancing, very clean, hand sanitizer available, greeted quick and seated with a smile.

Upon seating, our waitress Alannah, was fast to take our drink order. Minutes after our drink order, another waitress ask if our drink order had been taken, gotta love the team work. Makes you feel appreciated!

They had breakfast specials, reasonably priced, we ordered Breakfast Basics, 2 eggs any style. The options were grilled potatoes, hash brown casserole, grits or fresh fruit. Bread options were home-baked biscuit, English muffin, rye/wheat/raisin or white toast. My wife had grits and I choose grilled potatoes, we both had a biscuit. Ate it all.

What makes this restaurant unique is the family owned care and attention you receive. We were fortunate to speak with long time patrons Gail and Ted, that couldn't stop telling us about the owners and all the family members working there and their commitment to provide the quality food, service and the safety from the COVID Virus. We experienced all of it on our first visit. \$-\$\$

Carrabba's Italian Grill  
2370 SW College Road  
Ocala, Florida 34474  
352-867-0240

To beat the rush, my wife and I were having an early dinner. Very clean restaurant from the time you enter. Warm wonderful greeting from a hostess with smile! Social distancing and cleaning standards held at the highest, later in the meal, witnessed the

cleaning process after a couple left the restaurant.

Aimee was our waitress, quick to our table to take our drink order. She is very knowledgeable of the menu and suggested HALF PRICED appetizers. We chose the Tomato Caprese with Fresh Burrata. The generous portion of cut fresh cherry tomatoes, burrata mozzarella, red onions, basil blended with balsamic and olive oil. The perfect blend of flavor! They served complementary, warm fresh baked bread with pesto olive oil, very yummy.

For our entrees, my wife ordered the Mezzaluna, half-moon ravioli stuffed with chicken, spinach, ricotta and romano cheese in a tomato sauce. My choice was fettuccine carrabba, fettuccine alfredo, mushrooms, peas and smoked grilled chicken.

This dinning event was excellent \$\$-\$\$\$ experience! From the time you step in the door, you take in the decor, service, delicious flavors but most importantly the sense of feeling safe from the COVID-19 Virus!

M. Frank Turner

Blue Gill's Bait Shop and Eatery  
2727 N. Carl G. Rose, Hernando, Florida 34442  
352-419-5408

I made a reservation for a party of 12. Celebrating their birthday a few weeks late. A very special couple, a retired police officer and neurological surgical nurse.

Upon arriving at Blue Gill's on the lake. They have two dining areas, outdoor beach front and indoor seating at street level both

with a beautiful view of the lake. Reservations are accepted for indoor dining. The rustic decor with antique boat motors, fishing tackle, is air conditioned and handicap accessible. The hostess seated us at a large boat shaped table, which accommodated all 12 of us comfortably.

Our waitress was taking our drink orders as we was seated. The restaurant has a bar serving mixed drinks, wines, ice cold beer on tap and bottled.

Our table ordered a wide range of food from, boiled shrimp, grilled haddock, fish and chips, but prime rib was the overwhelming favorite at this outing. All entrees were generous servings with corn on the cob and two side choices. The prime rib was served as ordered with a slight smoke flavoring topped with a small rosemary stem. We finished our celebration with a slice of key lime pie that was smooth, creamy and slight lime flavored. All deserving the \$\$-\$\$\$ you will spend for your preference dish with the prompt friendly service you expect.

ONE PERSON'S OPINION

## LETTERS TO THE EDITOR

Editor:

### POWER

Humans having been fighting this malignancy since they first settled into communal living.

There are 2 kinds of power: Political and economic. The power luster's of the species want both kinds of power. They pretty much have had their way thus far. Are they going to succeed again?

Like him or hate him Trump is the only person even remotely interested in saving us from that fate? { After he saves us then we work on fixing the Deep State, the real power luster's. }

How many millions did Mao, Stalin, Pol Pot, Castro, Hitler murder? How many millions do you think A Green World will sustain? How many surplus humans will be murdered this time around? Killing humans is the Power Luster's sport. Don't you get it yet? It works that way every time.

Curiosity lead me to look for the meaning of conscience. Do you think anyone of these mass murders had a conscience? Conscience is not a concrete object, it is a feeling, a feeling none of these men possessed. Perhaps we need to devise a conscience test to forestall any future mass murderer from ascending to power?

Is that a clue we can use to stop the next mass murderer? Can you even imagine being the victim of some mass murder scheme? Doubt anyone killed in any of these mass executions foresaw what was coming. A thought like that has never crossed my mind, but the generations succeeding the greatest generations, have a loose screw is

putting it mildly. Truly John Dewey has succeeded beyond his wildest craziest dreams. Look at the brainwashed fools being graduated from the most prestigious schools. Where did these socialist thoughts take hold, in the classrooms of the top ten schools?

It is no picnic contemplating such a scenario, but living in a field of clover is not realistic. Look what has transpired thus far. Are you still thrilled with your quarantine? Mask? Social distancing? I will gladly give you mine. I might even throw in a few bucks to sweeten the deal.

Does all the looting, burning, rioting, murders add to your happiness?

Every bit of medication I put into my body is made in America {unless they are lying}, or Sweden, not China.

My life is my responsibility. That is the reason I spend an inordinate amount of time searching for knowledge. If an attempt to share the knowledge with others helps one person it is worth it. The most trouble free life we can fashion for ourselves should make us happy.

If you choose others are happy to control your life, is that your choice?

Again: Freedom or Slavery? Pick one.  
D.I. L

Dear Editor:

Everyone has a perspective. It is shaped by our journey through life, where and how we live. We can shape and control our perspective, if we are cognizant of its existence and decide to cultivate or mold it. Or, God can put His finger into our life and it

takes an unexpected turn, and we discover it, sometime later in life, and begin to work with and shape our perspective.

Many people never know they have a perspective. Many of those people can be intolerant of any other perspective, and consider any other than their own views, invalid. This presents big problems.

Whose perspective do we live by?

How do we get people to sit down and find a meeting place, all have to compromise. We

may find that we have more in common than we realize, we all have a have a problem with capitalism, but cannot seem to find a common ground on which to find a solution. Some really want power and a controlling form of government, others prefer a government that offers freedom, and a fair economic system. That is the crux of the problem.

I will listen, will you listen?

Concerned Citizen

## Staycation

*Continued from page 5*

treat, it's a great way to shop locally. Many of them have adopted social distancing guidelines, so they can be safe for family outings. These markets usually have beautiful fresh and seasonal options to explore, and perhaps find some fascinating new fruits and vegetables. Also, getting the kids involved in selecting ingredients for your meals may help spark their interest in healthier eating. Breaking your usual grocery shopping routine by browsing the stalls in beautiful weather can help spark a vacation vibe.

### Create Your Own At-Home Retreats

With a little planning, you can make your own backyard or home feel like an enchanting vacation spot. For a spa weekend, buy or make your favorite products, and set up time to relax and treat yourself. Turn off all your tech distractions, set up a space outside or in a quiet room. You can even make spa water by cutting up some cucumber or fruit to flavor the water. Consider creating your own yoga retreat. Turn to your favorite online trainer, set up your mat in a designated space, light some

candles or incense, and be sure to practice daily, with relaxing music. It's all about being creative.

### Travel With Your Cooking

With travel on the back burner, consider themed cooking nights to help transport your taste buds to any destination. It can be really fun to make drinks, shakes and meals with ingredients from places that are on your future travel list. Enjoy a nice Italian spritzer with your pasta one night, try cooking a beautiful curry meal or ordering take-out from a restaurant you've never tried before. Take it a step further and print out some fun facts you can find online or rent a movie about the particular culture you'll be indulging in that night; it's a great opportunity for your family to learn about other cultures through food.

Finally, take time to plan out your staycation in the same way you would with a travel vacation. Having an itinerary of what you want to do helps to prevent the lazy, do-nothing blues from taking over. A vacation is about rest, relaxation, discovery and recreation—all of those things can be accomplished right where you are. Studies have shown a positive correlation between taking vacation time and an overall feeling

of well-being, so no matter what's on your itinerary, make sure to thoroughly enjoy yourself.

## At The Dentist Office

*Gary Severance, DDS, Executive Leader of Professional Relations, Henry Schein Dental*

(NAPSI)—As dental offices re-open across the nation, patients may be in for some pleasant surprises. For one thing, you can rest assured that there will be new protocols that help keep your dental visit safe and comfortable.

### What Dentists Are Doing

Enhanced patient protection measures include: All dental team members have upgraded their protective gear. This includes appropriate personal protective equipment (PPE) for all appointments. Between patients, dentists and their team will meticulously clean and disinfect surfaces and sterilize instruments.

Many dentists also offer a virtual waiting room. Patients can check in via text message and wait, if necessary, somewhere outside the clinic, such as in a car.

Patients and dental professionals are screened for COVID-19 symptoms and risk factors before each appointment.

To help make the air quality sanitary, many dentists have even invested in high-efficiency air purification systems.

### What You Can Do

There are also certain steps you the patient can take to help keep everyone safe as well.

Here, from the experts at the American Dental Association, are some useful facts

*Continued page 10*

## Dentist

Continued from page 9  
and tips:

Before your appointment, your dental office may call you to ask about your current health and travel records.

You may also be asked to limit the number of people you bring to the appointment. That could mean leaving your children at home or allowing older children go to the office alone while a parent waits outside.

At your appointment: Be sure to wear a mask, even if it's not required and especially if your dentist's office is in an area where one is required. When you get to the dental office, you may be asked to wait outside until they're ready for you. This will reduce the number of people in the office and reduce the amount of time you're exposed to other people. When you enter the office, be prepared to have your temperature taken or other health test. Inside the office, things people tend to touch in the waiting room—such as toys or magazines—may no longer be there. Hand sanitizer, masks, and gloves may be made available to you.

Once you're in the dental chair, you may notice some things look different from the last time you were there. The dentist may have covered the computer's keyboard with a disposable cover so it can be easily cleaned between patients, for example. Your dentist may also be using different protective equipment than you've seen at previous appointments, including different masks, face shields, gowns, gloves, and goggles.

After your appointment, the dental team members will thoroughly clean the area with disinfectant. If you start feeling symptoms of COVID-19 within 14 days of your appointment, contact the dental office. You may have already been carrying the virus at

the time of your appointment, so anyone who came into contact with you during that time could be at risk for getting sick, too.

### Learn More

For further hints from the dental professionals who get equipment and information from Henry Schein, the world's largest provider of health care solutions and services to office-based dental and medical professionals, go to [www.henryschein.com/customerstories](http://www.henryschein.com/customerstories) to watch Road to Recovery videos on how dentists are working on ways to reopen safely for everyone.

## RV Owners

**Unprecedented RV rental demand from cautious travelers has made owning an RV the go-to entrepreneurial venture of the year**

(NAPSI)—Millions of Americans who own an RV have it parked in their driveway or a storage facility for the better part of the year. With many families wary of airplanes and hotels these days, it may be time to consider renting your rig to make some serious cash.

According to peer-to-peer RV rental marketplace RVshare, RV bookings have reached unprecedented levels of demand, increasing more than 1,600% since the beginning of April and already tripling 2019 figures. As a result, RV owners are poised to capitalize on the surge of families discovering the unique and adventurous nature of RV travel for the first time.

In fact, the average RV owner who rents on the RVshare platform can earn up to \$60,000 a year in rental income. The amount of money you can make from renting your RV can vary based on the type of vehicle you own.

The most in-demand rentals on RVshare are Class C vehicles, which strike a great

# FLORIDA GOVERNOR'S DESK

## Governor Ron DeSantis Announces \$900,000 in Awards to Two Rural Northeast Florida Communities to Improve Infrastructure

On July 16, 2020, in News Releases, by Staff  
Tallahassee, Fla. —

Today, Governor Ron DeSantis announced \$900,000 in funding for infrastructure projects in two rural communities in Northeast Florida. Administered by the Florida Department of Economic Opportunity, the Rural Infrastructure Fund (RIF) provides funding to local governments for infrastructure projects in rural communities to encourage job creation and business investment and to strengthen and diversify rural economies.

“Rural communities are vital to the development and growth of Florida's economy and I'm committed to helping them thrive,” said Governor DeSantis. “Infrastructure improvements made available through the Rural Infrastructure Fund will help rural communities be able to attract businesses and provide more resilient infrastructure for the future of their local economy.”

The rural communities receiving funds include:

Columbia County – (\$500,000) to assist in funding the construction of a natural gas main loop that will serve existing and new businesses along the Bell Road Corridor. This project will provide necessary infrastructure to the existing distribution center and allow for expansion of the transportation logistics industry in this vital development area. The project is expected to attract more than \$1 million in capital investment in Columbia County and create

an estimated 43 new jobs.

Town of White Springs – (\$400,000) to help fund construction, engineering and inspection services to improve sewer system transmission capabilities and correct issues that caused overflows during Hurricane Irma to the Town of White Spring's more than 40-year-old core sewer system.

For more information, visit [FloridaJobs.org/RIF](http://FloridaJobs.org/RIF).

## Governor Ron DeSantis Announces Next Steps to Strengthen Florida's Electric Vehicle Infrastructure

On July 10, 2020, in News Releases, by Staff

*\$8.6 million investment will protect air quality and expand state's charging stations by 50 percent along most traveled corridors*

**Orlando, Fla.** – Today, Governor Ron DeSantis announced \$8.6 million in funding to strengthen Florida's electric vehicle infrastructure. This investment marks another step in the state's efforts to provide accessible electric vehicle infrastructure while also protecting air quality and expanding the state's charging stations by 50 percent along most traveled corridors.

“This long-term investment in electric vehicle charging infrastructure is a win for our state on multiple levels,” said **Governor DeSantis**. “Not only will these charging stations promote reduced emissions and better air quality, they will also improve mobility and safety for the ever-increasing number of Floridians that drive electric cars. I look forward to building on this investment and continuing our work to improve Florida's environment and transportation infrastructure.”

“Florida strives to lead the nation in air quality and is proud to be the most populous state in the nation to have met all of EPA's

National Ambient Air Quality Standards,” said **Department of Environmental Protection (DEP) Secretary Noah Valenstein**. “Through collaboration with sister agencies and the private sector, we are able to implement projects like these, that will protect air quality and provide access to charging stations in our state as electric vehicle usage continues to increase.”

“Under Governor DeSantis' leadership, Florida is advancing emerging transportation alternatives to build an infrastructure that will prepare us for decades to come,” said **Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, P.E.** “The addition of these electric vehicle charging stations will not only keep pace with the dramatic increase in the use of these vehicles, but also help to reduce emissions and improve mobility across Florida's transportation system.”

“The installation of these charging stations will greatly extend the range for electric vehicle travelers throughout our state,” said **Senator Debbie Mayfield**. “Under the great leadership of Governor DeSantis, we are continuing to improve our transportation infrastructure while also improving air quality as we lead Florida into a new era of technological innovation.”

“In March of this year Florida became the largest state in America to meet all National Ambient Air Quality Standards, and the addition of these electric vehicle charging stations encourages more EV commerce across our highways, producing less vehicle emissions,” said **State Representative Mike LaRosa, Chairman of the House Commerce Committee**. “I commend Governor DeSantis for providing Floridians and visitors to our state alike the ability to charge their environmentally friendly vehicles at our turnpike facilities and for continuing to deliver the cleanest air in Florida history.”

“As the first member of the legislature to drive a fully electric vehicle, I know not only the positive effect these cars can have on the environment, but the importance of having a solid infrastructure to leverage their growth,” said **Representative Randy Fine**. “I am excited about today's announcement for the commitment we continue to show to improving Florida's environment.”

Under the Volkswagen Settlement, Florida was allotted \$166 million to improve air quality. Florida's Beneficiary Mitigation Plan, which was finalized last October, outlines how the State intends to spend the full award under this settlement. This Plan focuses on Diesel Emission Reduction Act (DERA) projects, the construction of new electric vehicle charging stations and the procurement of electric buses for select school districts and transit agencies.

DEP has reviewed the applications received for the electric vehicle charging stations and has selected the projects to receive the awarded funding. With this funding, 74 additional DC fast chargers will be installed statewide. Combined with the chargers FDOT is installing along the Florida Turnpike, a total of 104 DC fast chargers will be installed along over 1,200 miles of highway, covering the most traveled corridors in the state. Each of the 34 locations will have at minimum 2 chargers each. This represents an approximately 50 percent statewide increase in publicly available DC charging stations.

For more information on Florida's Mitigation Plan and project selection, please visit DEP's webpage at <http://floridadep.gov/Volkswagen>.

## VOLKSWAGEN DRAFT MITIGATION PLAN

# FLORIDA STATE ATTORNEY GENERAL

## Capital City Health Care Provider Arrest for \$50,000 in Medicaid Fraud

TALLAHASSEE, Fla. — Attorney General Ashley Moody's Medicaid Fraud Control Unit, with the assistance of the Leon County

Sheriff's Office, today arrested a Medicaid provider on charges related to \$50,000 in fraud. The arrest follows an MFCU investigation that revealed Rodney Burt, 57, billed the Florida Medicaid Program for services not rendered from May 2016 through November 2019.

Attorney General Ashley Moody said, “Participation in Florida's Medicaid Program is increasing during this health crisis, and we will do everything in our power to protect taxpayer funds from fraud. That is why my Medicaid Fraud Control Unit attorneys and investigators aggressively chase down leads and uncover abuses in this taxpayer funded health care program to ensure those who would aim to rip off taxpayers are stopped and brought to justice.”

Additionally, the investigation uncovered that Burt, owner of No Place Like Home, a Home and Community Based Service Provider, assigned inaccurate billing codes

to claims submitted to the Florida Medicaid Program in order to increase reimbursements—a fraudulent billing practice known as upcoding.

To view the Probable Cause Affidavit, go to [www.myfloridalegal.com/newsrel.nsf/newsreleases](http://www.myfloridalegal.com/newsrel.nsf/newsreleases)

Burt is charged with one count of Medicaid provider fraud \$50,000 or more, a first-degree felony. If convicted, Burt faces up to 30 years in prison and more than \$300,000 in fines and restitution.

The Attorney General's MFCU will prosecute the case through an agreement with the State Attorney's Office in the Second Judicial Circuit.

## Attorney General Moody and FTC Distribute More Than \$16 Million in Refunds for Victims of Bogus Debt Relief Operation

TALLAHASSEE, Fla.—Attorney General Ashley Moody and the Federal Trade Commission announced more than \$16 million is now being distributed to victims of a debt relief scam. The scam targeted thousands of consumers facing financial difficulty in Florida and across the nation. The millions in restitution culminates from a joint lawsuit brought by Attorney General Moody's Consumer Protection Division and the FTC against a group of defendants known as [Helping America](#)

[Group](#) for allegedly convincing victims to pay hundreds or thousands of dollars a month by falsely promising to pay, settle or obtain dismissal of debts and improve payors' credit scores. Instead, victims discovered debts unpaid, accounts in default and credit scores severely damaged—some were sued by creditors, and others were forced into bankruptcy.

Attorney General Ashley Moody said, “It infuriates me that anyone would take advantage of people trying to pay off their debts and improve their financial situations. Thankfully, our office, working together with the FTC, has now recovered millions to be returned to the victims of this appalling scam.”

More than 27,000 refund checks will be sent to victims of the scam. Additional money is expected to be collected in this case, and a second round of checks will be planned once additional money is secured.

Recipients should deposit or cash their checks within 90 days. The FTC never requires people to pay money or provide account information to cash a refund check. If recipients have questions about the refunds, they should contact the FTC's refund administrator, JND Legal Administration, at 1(833)928-2567. Refund data can also be viewed on the FTC's [interactive dashboards for refund data](#).

Consumers suspicious of a scam or

deceptive behavior can report it to the Florida Attorney General's Office by calling 1(866) 9NO-SCAM or file a complaint online at [MyFloridaLegal.com](http://MyFloridaLegal.com).

## Millions Available in Tech Support Scam Restitution as August Deadline Approaches

TALLAHASSEE, Fla.—Attorney General Ashley Moody today issued a Consumer Alert to urge victims of several tech support scams to claim millions of dollars made available for restitution. The multimillion dollar claims process currently underway is the result of action taken by the Florida Attorney General's Office to shut down several companies operating tech support scams. The deadline to file a claim is August 30. Thousands are eligible, but so far, only hundreds have successfully filed claims.

Attorney General Ashley Moody said, “Our Consumer Protection Division has worked hard to secure restitution for victims of tech support scams and they continue to diligently reach out to eligible consumers. We need your help to make sure victims know restitution is still available. If you or someone you know was the victim of a tech support scam, please file a claim before the August 30 deadline.”

For more information on the claims process, visit

[FloridaAGReimbursement.com](http://FloridaAGReimbursement.com).

The claims process follows a massive tech

Attorney General
Continued from page 11

support scam investigation by the Florida Attorney General's Office into the following companies; Complete Fix, Compusafe, JSA Sales, GoReadyCalls Marketing, My Direct Customer Care, My Direct Tech, PC Tech Pros, Project Net 123, Protectnet Solutions, Safenet Solutions, Secure IT Digital Solutions, Telcom Experts, US Software Experts, US Software Pros, Webguard 123 and Wizard Tech Solutions. Another company, Banc of America Merchant Services, provided payment processing for the accused companies. Through an agreement with Banc of America Merchant Services, a claims process is now in place with \$7,200,000 available for victims.

The investigation revealed that more than 100,000 people nationwide fell victim to the tech support scams perpetrated by these companies. Last year, and again last month, claim notices went out to thousands of potential eligible consumers with information about how to obtain restitution. So far, approximately \$197,000 of the fund has been distributed.

Eligible victims are encouraged to submit claim forms as soon as possible. The deadline to file a claim and any supporting documentation is August 30.

Since 2014, the Florida Attorney General's Office has successfully shut down 13 tech support scams—representing the most tech support scam cases filed by any

single state agency in the country. Attorney General Moody filed the most recent case against [American PC Corporation](#).

Tech support scams typically involve fake pop-up messages or imposter phone calls claiming that a consumer's computer is infected with malware that poses an imminent risk to the device. Fraudsters will request virtual access to a victim's computer to supposedly fix the nonexistent problem. These scammers often target seniors.

To avoid tech support scams, consumers should never:

- Click on any links or call phone numbers provided on pop-up ads or emails;
- Send money, credit card numbers or any financial information to someone they do not know;
- Give anyone control of personal computers or electronic devices;
- Forget that Microsoft and most major computer companies do not display pop-up warnings and ask consumers to call toll-free numbers about viruses or security problems; or
- Go online without up-to-date security software.

For more information on avoiding tech support scams, click [here](#).

To report a suspected scam, submit a complaint by calling the Attorney General's Office at 1(866) 9NO-SCAM or visiting [MyFloridaLegal.com](#).

## RV Owners

Continued from page 10

balance between features and price, making them popular with first-time renters. Class C rentals have an earning potential of \$38,000 a year. Class B vehicles, or camper vans, are the fastest growing in popularity on RVshare. With demand skyrocketing for these units, Class B rentals can earn up to \$30,000 a year when listed on RVshare.

"During this time of financial instability, an RV can be converted into a significant money-making asset that many owners may not have previously considered," said RVshare CEO Jon Gray. "For those who do not own an RV, now may be the time to invest. It's not just pocket change that RV rentals can bring in."

You can offset much or all of the cost of RV ownership from rental income. A survey of RV owners found that more than half (51%) are able to cover 76% or more of their RV's financing cost through renting to travelers, with more than a third (35%) covering all or more of their financing cost.

RVshare's Earnings Calculator can help evaluate the income potential of renting your RV, and to ease the minds of those new to the practice, RVshare provides owners with several tools and features to protect vehicles and their owners including:

\$1,000,000 Liability Insurance, User Verification, Secure Payments, One-on-One Rental Coaching, 24/7 roadside assistance

Additional information on how to get started renting an RV can be found at <https://rvshare.com/list-your-rv>.

## Letters

Continued from page 8

Dear Editor:

**D O E S W A T C H I N G T H E D E S T R U C T I O N O F O T H E R P E O P L E S L I V E S B E I N G D E S T R O Y E D M A K E Y O U F E E L H A P P Y ?** Rioting, burning, and looting?

If the answer is no, what can you, what should you do?

Because that conduct is the perspective of a bunch of brain washed kids, do you have to be accepting?

A knowledgeable black friend is considerably more disturbed about the happenings than I am. We are on the same page mutually disturbed by the infantile behavior.

John Dewey told you in plain English what they had planned to do to the children in our schools. You can see the 2 inch headlines in the newspapers of the day. These idiots are the result. Do you like where and how your money has been spent? These people do not kid, they say what they mean, and do it. They promised to brainwash your children, Walla! Dewey promised to keep them dumbed down. Are these morons, looting and burning, dumb enough for you? Want more money for schools? Need more of the same. Do you know or care what children learn.? People can say anything. Do you have to believe them? Do we have education? It does not fit my definition of education.

What is the answer?

Allow our country to be destroyed? Enslaved by a pack of drugged power

lusting morons?

America has done so much good for this planet. People are begging us for help: Hong Kong, Venezuela, boat loads of people all over the world are trying to escape brutal governments. Everyone in the world is trying to make it to America.

Decades ago relatives from Sweden wanted to be sponsored for citizenship in America. They were here on some sort of temporary visa for 2 years. They left when the visa expired. My husband did not want the responsibility of sponsor. If they are still alive they could just walk across the border, and have a free ride for everything. Life is not fair. These were honest hard working, intelligent people.

Now, any moron who wishes can walk over the border, and be welcomed with open arms, and everything is expected to be free.

If I did not want to sponsor productive people why do I want to allow bums to sponge off of me? I cannot afford them. Can you?

Has common sense died?

## DAV *Continued from page 2*

veterans in accessing the benefits earned through their service to finding meaningful employment and supporting their families. DAV has continued to evolve and provide new care as veterans' needs have changed. However, one tradition remains a constant: DAV's services are provided to veterans and their families at no cost or obligation to them.

DAV's benefits advocates are located nationwide to assist veterans with accessing the health care, financial, disability and educational benefits they've earned. For those needing guidance on the transition to civilian life, DAV advocates provide benefits counseling at nearly 100 military installations throughout the country. They also assist veterans with filing initial claims for their VA benefits, as well as providing everyday support.

DAV is also committed to ensuring our nation's warriors have the tools, resources and opportunities they need to competitively enter the job market and secure meaningful employment. DAV helps facilitate more than 144 career fairs annually, including virtual and live events to connect veterans with employers who are committed to hiring them. DAV offers advice to job seekers on how to succeed in their careers while educating companies on the value they bring to the workforce. To find a schedule of DAV's career fairs, go to [jobs.dav.org](http://jobs.dav.org).

DAV also helps address the underlying issues of homelessness. Studies show that PTSD is a leading contributor to the homelessness of nearly 40,000 American veterans, with another 1.4 million at risk. DAV's Homeless Veterans Initiative promotes partnership between the

organization and federal, state, county and local governments to develop programs to assist homeless veterans in becoming self-sufficient.

When natural disasters strike, from hurricanes to wildfires, the DAV team is on the ground to help our heroes. DAV provides financial assistance to help eligible veterans and their families secure food, warm clothes and shelter and distributes supply kits with basic comfort items. In the past five years alone, the program has provided more than \$3.6 million to assist nearly 10,000 victims.

Another growing need, particularly for the aging veteran population, is transportation to medical appointments. Since 1987, DAV has organized no-cost rides with volunteer drivers to get veterans to their scheduled care at VA medical facilities. During this time, DAV has donated 3,678 vehicles at a cost of nearly \$85 million to the program and has provided more than 615,000 rides annually.

For those needing a little household assistance or other services, DAV also offers a searchable online database, VolunteerforVeterans.org, where veterans and their caregivers can find the help they need, from local volunteers for basic tasks like doing yardwork or running errands.

Since 1920, DAV has been a leader in strengthening federal programs, benefits, health care and transition services for the men and women who served, their families and survivors. Its advocacy efforts on Capitol Hill are guided by DAV members through the adoption of resolutions at its national convention, and last year, with the strength of more than 1 million members, nearly 40 of these critical priorities were included in legislation or other means, with five becoming law.

We salute DAV for 100 years of tireless service and thank them for the work still to come in caring for America's veterans. To learn more and get the help you need, visit

[DAV.org](http://DAV.org).

## Energy

Continued from page 3  
presented by grid applications such as peak-shifting and Transmission and Distribution (T&D) capital deferral.

Energy storage systems provide many ways to manage the power supply for a more resilient energy infrastructure, and bring cost savings to utilities and consumers. Batteries allow the use of electricity whenever it's needed, not only when it's generated. However, traditional battery economics and performance have not proved helpful as utilities look to increase renewable penetration through long-duration energy storage.

### The Problem

One of the challenges to growing a North American energy storage industry, however, has been a dependency on a supply chain of hardware components, metals and chemicals, many of which come from outside North America. As well, metals such as lithium and vanadium used in some batteries are impacted by price volatility and security of supply.

### An Answer

Those same risks do not apply to zinc-air batteries. Zinc is abundant and inexpensive, with a significant North American supply. Its chemistry is robust and safe. A zinc-air battery has decoupled energy and power, making it one of the lowest-cost long-duration battery storage solutions available.

A safer, cleaner future requires less polluted air which means replacement of carbon-based power generation with renewable, sustainable sources of electricity. Long-duration, low-cost energy storage systems such as zinc-air will be a key driver to a quicker path towards a greener future. A "bet" on energy storage is a wager that will deliver a cleaner planet that will thrive for current and future generations, suggests Ron MacDonald, president and CEO of Zinc8 Energy

Solutions, the leader in zinc-air battery technology, a unique flow battery technology using zinc and air as fuel.

### Learn more

You can find further facts and stats on energy storage at [www.zinc8energy.com](http://www.zinc8energy.com).

## Interesting Quote...

Have we reached the ultimate stage of absurdity where some people are held responsible for things that happened before they were born, which other people are not held responsible for what they are doing today?

Thomas Sowell
